About

I am 22 years old and have experience in both personal and commercial projects. I am very responsible, purposeful and assiduous. I always try to find solutions in difficult situations and bring the matter to the end. I am well versed in programming languages such as PHP, JS, C#. Working on various web projects and games, I learned how to properly represent code. I am a fast learner and am ready to contribute to the success of your team. In recent years, I also served in the army on a contract basis.

Experience

2023- the current time
Full stack web developer
Techin-Lab

Bitrix24: Refinement, configuration, integration with third-party services. **1C-Bitrix**: online stores - development, integration with B24, etc. work with the **Bitrix24 API** at the **PHP** level and based on the REST API.
